INFORMATION SYSTEM SECURITY ENGINEER ✧ CYBER SECURITY ANALYST
Clearance ✧ Top-Secret ✧ Active (Investigation Complete 7/2019)

Accomplished, detail-oriented Cybersecurity / Information Technology Professional highly regarded for proficiency in determining system/security requirements and resolving issues quickly. Skilled in providing effective results in fast-paced, deadline-driven environments. Well-versed in both today's technology and software to not only provide service and implement, but also secure and protect these devices and systems. These technologies include Windows (Desktop and Server) and Linux Systems (Fedora/RHEL | Debian/Ubuntu Administration) as well as various Hypervisor Administration (VMWare/Proxmox) and networking. Known for outstanding presentation and communication skills, understanding business requirements to cross-collaborate and increase profits. Out-of-the-box, analytical thinker who pushes creative limits to solve complex technical issues, optimizing project outcomes.

CERTIFICATIONS

AWS:
- Solutions Architect Associate (SAA), 2020 (Credential ID: FNX6Y2MK3BBE15WR)

ISC(2):
- Certified Information System Security Professional (CISSP), 2019 (Credential ID: 714277)

CompTIA:
- A+ - September, 2018 (Verification Code: 2WQVW5MPPHREQ6G8)
- Network+ - August, 2018 (Verification Code: Y3R9JMJHGCQE18G5)
- Security+ - May, 2018 (Verification Code: L81GJERNHLE1129P)

EDUCATION

Colorado State University-Global Campus, Greenwood Village, CO: 2018
Bachelor of Science- Information Technology, Specializing in Cyber Security (GPA: 4.0/4.0) Magna Cum Laude

- **Relevant Coursework:** Information Systems and Security, Network Enterprise Solutions, Intermediate Networking, Basic Programming, Database Management, Digital Forensics and Investigations, Principles of Cyber Security, Ethical Hacking and Penetration Testing, Information Technology Project Management.
- **Awards/Honors:** Golden Key International Honour Society, Awards of Achievement in Information Systems Management and Network Security and Analysis

Florida State University, Tallahassee, FL: 2011
Bachelor of Science – Criminology (GPA: 3.4)

Gulf Coast State College, Panama City, FL: 2009
Associate of Arts – General Studies

PROFESSIONAL EXPERIENCE

SeKON ✦ Rosslyn, VA ✦ 2020 – Present
Information Systems Security Engineer / CONMON + Compliance Management
(Active Top-Secret Clearance)

- Implemented the DOD's Continuous Monitoring and Risk Scoring (CMRS) system for various Information Systems utilizing ACAS Security Center for connection to the Enterprise Mission Assurance Support Service (eMASS).
- Weekly ACAS scanning and review of Information Systems. Provided these results in both ASR/ARF pair files to the ISSO's for ingesting into eMASS, as well as verify results within CMRS to be true/accurate. Provided feedback for false positives, CAT 1 & 2 vulnerabilties, and IAVM's.
- Assisting in, as well as audit Information System Security Packages to ensure compliance is met for the sponsor/customer.
- Assisted ISSO's during Quarterly and Annual Security Reviews by selecting appropriate STIGS/SRG's for Information Systems. Reviewed STIG Checklists received by System Admins/Engineers of their respective information systems for Quarterly and Annual Security Reviews. Provided feedback after reviewing artifacts presented
- Participate in Configuration Management, Change Requests, POA&Ms and other processes throughout the RMF Lifecycle, specifically steps 2 (Categorize), 3 (Select Controls), 4 (Implement Controls), and 7 (Monitor).
- Assisted in writing several Standard Operating Procedures (SOP's) for the Cyber Security Team as well as the Information Systems Security Engineering team.
- Validate POAM and TSAR paperwork received by various joint entities are valid and completed thoroughly.
- Determine System Security Requirements, required tools, and architecture are compliant and authorized for various systems.

Georgia Tech Research Institute ✦ Atlanta, GA ✦ 2018 – 2020
Information Systems Security Officer (Active Top-Secret Clearance)

- Day to day included multi-tasking for various (nine) independent isolated information systems as an ISSO.
- Worked with Risk Management Framework (RMF), NIST SP 800, Joint Special Access Programs Implementation Guide (JSIG) and National Industrial Security Program Operating Manual (NISPOM) to provide Bodies of Evidence (BOE) to government departments and agencies for security of their systems.
- Developed and wrote Security Control Traceability Matrix (SCTM), System Security Plans (SSP)/Security Assessment Plans (SAP), Risk Assessment Reports (RAR), Continuous Monitoring and Plans of Action and Milestones (POAM) for systems, as well as maintaining system design/architecture throughout the lifecycle of the information system.
- Participated in recertification of systems to achieve ATO status.
- Identified System Vulnerabilities as well as assisted in approval of software/hardware's to be added to system through thorough research of known vulnerabilities and issues, as well as implementing mitigation strategies.
- Actively monitors/updates/utilizes SIEM tools including Nessus and Splunk on Information Systems to ensure critical updates are implemented, and auditing of systems are performed (weekly).
- Weekly/Annual cyber-security training to both technical and non-technical personnel.
- Design Secure Information Systems Architectures for new/emerging information systems based on JSIG/RMF.

Mount Vernon Towers ✦ Atlanta, GA ✦ 2018
IT Technician

- Restructured/redesigned network for the company to not only streamline data and efficiency, but in turn save money by combining external services into one platform.
- Established various testing and hardening practices to ensure security of network and physical components.
- Assist residents and employees with day-to-day IT issues, such as internet connectivity, data-migration, password resets, adding and removing users, mobile devices, and education on new technologies.
- Managed wireless and wired networking (including various brands of routers/switches and Ubiquiti Access Points), VPN, IP/POT Telephones.

Bay County Sheriff's Office ✦ Panama City, FL ✦ 2013 – 2018
Corporal, Field Services Division

- Supervise six (6) deputies in the West District:
  - organizing daily zone schedules, resolving employee grievances, and training and counseling deputies.

Additional Experience:
BookIt.com, Panama City, FL: 2011 – 2013, Loss Prevention/Fraud
CompUSA, Nashville, TN: 2006 – 2007, Loss Prevention/IT Services Department.
Laguna Beach Supply Co., Panama City, FL: 2002 – 2005, 2007 – 2011, Cashier/Stock/Events
Osborne Apple Market, Nashville, TN: 2005 – 2006, Stock/Cashier

TECHNICAL SKILLS	
APPLICATIONS	JIRA, Microsoft Office 365 (Word, Excel, PowerPoint, Outlook), and more
DATABASES	Microsoft SQL Server, MySQL
Hardware	Various Hardware including Desktops and Servers, Networking Equip.
Network	Hardware/Software Firewalls, Switches, Routers, Terminations, and more
NETWORK DESIGN	Integration of distributed networks (VPN bridges, VPN gateways), VLANS
OPERATING SYSTEMS	Windows (7/8/10/Server 2012/2016/2019), Mac OSx and Linux (Unix)
SIEM	Splunk, Nessus (Tenable)/ACAS
SERVER ADMINISTRATION	Windows Server 2012 R2, Server 2016/2019/2022 (Active Directory, Group Policy, Remote Desktop Services), Linux Environments (RHEL/Fedora, Ubuntu/Debian)
VIRTUALIZATION	VMware Virtualization (ESXI/vSphere), Oracle VirtualBox, Microsoft Hyper-V, Proxmox
